LETTER CONCERNING PAIR DATABASE  
RECORD IN PARENT APPLICATION

Sir:

Applicants respectfully note that continuity data shown on the Patent and Trademark Office PAIR website in connection with parent application U.S. Patent Application No. 09/833,032, filed April 11, 2001 remains incorrect after applicants' requests during prosecution of that application for correction of the data. Request For Correction  
of PAIR Database Record

This application claims benefit under 35 U.S.C. § 120 from International Application No. PCT/EP00/07615, filed August 5, 2000. A claim of priority from the international application was presented in an Application Data Sheet (copy enclosed<sup>1</sup>), filed concurrently with the instant application, under 37 C.F.R. § 1.76(b)(5). A Filing Receipt issued by the Patent and Trademark Office on June 7, 2001 (copy enclosed) acknowledged the claim.

Applicants have become aware, however, that the Patent and Trademark Office PAIR Database Continuity Data web

---

<sup>1</sup> The Application Data Sheet enclosed herewith is a copy of the original Application Data Sheet that was filed concurrently with the application, not a Supplemental Application Data Sheet. Applicants note that the address of inventor Achim Sach shown on the copy of the original Application Data Sheet is outdated. The address was updated by the filing of an executed Declaration on December 4, 2001.

page linked to the PAIR web page for this application erroneously does not show International Application No. PCT/EP00/07615.

Also, applicants note that on the linked Publication Review web page for this application:

1. The date shown in the "PCT filed" field is incorrect;

2. The "PCT Number" field is empty; and

3. The "Parent Continuity Data" field is empty.

(Applicants also note that the "Inventor Name(s)" field omits two of the seven inventors for this case. Applicants are taking steps to correct the omission.)

In a November 15, 2002 telephonic interview with Supervisory Patent Examiner Henry Yuen, Examiner Yuen stated that, although the omission of priority data from the PAIR database does not affect a priority claim, applicants may request that the PAIR Database records be corrected.

Accordingly, applicants respectfully request that the Patent and Trademark Office correct the PAIR Database for this application as follows:

1. On the Continuity Data web page, please include International Application No. PCT/EP00/07615;

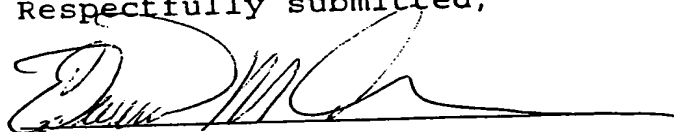

2. On the Publication Review web page, please correct the "PCT filed" field to show that the PCT filing date is August 5, 2000;

3. On the Publication Review web page, please correct the "PCT Number" field to show that the International Application No. is PCT/EP00/07615; and

4. On the Publication Review web page, please correct the "Parent Continuity Data" field to show that this application is a continuation of International Application No. PCT/EP00/07615.

Although applicants are not aware of any fee that may be due in connection with this Request, the Director is hereby authorized to charge any such fee to Deposit Account No. 06-1075. A duplicate copy of this Request is enclosed herewith.
